GREAT BEER BEGINS WITH GREAT INGREDIENTS

Issue No.1  
BREW.CULTURE.COM

“Brew Culture is simply the best. Since the beginning they’ve always been there for us. Whether it was last minute orders or helping us fulfill hop contracts, the crew at Brew Culture stepped up every time. Dealing with them has been like dealing with family - in a good way!”

David Bowkett ~ Powell Brewery

## Issue No. 1

# Opening Address

The recent past has brought our industry both its shared challenges and successes. Relationships have been strengthened and reaffirmed, as we all find solutions for our respective needs and opportunities to collaborate. We've made it our mission to nurture and foster our partnerships to offer cost efficient solutions, equal access to an international network of brewing ingredients, competitive pricing, and quality service that you can depend on.

We are committed to bringing new and exciting products to the Canadian craft beverage market, and expanding our offerings to align with emerging industry trends. Our global partnership portfolio across hops, malt & grains, yeast, brewing aids, and cleaning solutions, provides customers with a Canadian owned and family operated source of the best quality ingredients from around the globe. Our goal is to provide brewers the opportunity to make the best quality beer to match their creativity.

Your continued support and trust in our products and services mean the world to us, and we will continue our commitment to service your business with the utmost care and attention.

I hope we have the opportunity to share a beer and work together soon!

Daniel Collins

# About Us

It is our belief that 'Great Beer Begins With Great Ingredients'. With that mindset, we created Brew Culture in 2014 out of a passion for craft beer and a love of hops.

We work direct with our partner suppliers around the globe to offer an extensive and growing list of premium quality products. We pride ourselves on our industry partnerships to supply a comprehensive list of hops, malt & grains, yeast, brewings aids, and cleaning solutions to breweries across Canada.

As the Canadian distributor for industry leaders such as Yakima Chief Hops, Roy Farms, Virgil Gamache Farms, Seitz Farms, IREKS Malt, Raven Malt, Muntons Malt, Prairie Malt, Grain Millers, White Labs Yeast and Lallemmand Brewing, we proudly stand behind only the highest level of quality raw ingredients.

With locations in Muskoka, Ontario and Vancouver, British Columbia, we deliver flexible and superior logistic services, paired with unparalleled customer service. We ensure all brewers, from nano to national, get the right product for the task at hand each and every time.

At Brew Culture, we're uniquely positioned to bring together the strong relationships we have established over the years with our partner suppliers, and our brewer friends, who utilize our premium quality products in the creation of their beers.

# What We're About

## **Values**

We serve and support our brewing community from farm to glass. We celebrate win-win partnerships while promoting collaborations, connection, and sharing of knowledge and experiences. We believe in equal access and opportunities for all breweries big or small and service each with the same personal care and attention.

## **Mission**

To partner with the best suppliers from across the globe to bring trusted industry favourites and exciting new products into the Canadian market delivered with reliable trusted support and dependable access for our customers.

## **Vision**

To maximize the potential of every brewer's creativity by connecting them to an international network of premium ingredients. "Quality to Match Creativity."

## **Purpose**

To elevate every brewer's creative potential by providing the best ingredients supported by expert knowledge and uncompromising care.

## **Diversity & Inclusion**

At Brew Culture, we continue to build an inclusive culture that encourages, supports, and celebrates diversity in age, gender identity, race, sexual orientation, physical or mental ability, ethnicity, and perspective.

# Working With Us

There are two things that matter most to us; great beer and great service. This is true whether you are ordering a pint in a taproom or hops for the brew day. No one remembers how good a beer was if the service was terrible. We want to elevate your brewing experience by providing you with industry leading customer service. The only robot in our company makes coffee, the rest is done by real people who are just as passionate about a fresh lager poured with a dry peaking foam cap, in a biergarten overlooking the rolling scenic hills of...we digress, but I think you get the point! We pay attention to the details, and listen to your needs, so that you can focus on brewing!

# What We Do

As an independent Canadian owned and family operated brewing ingredient purveyor, we pride ourselves not only on our extensive product portfolio, but on our customer service as well. Our goal is to ensure all of our brewers needs are met no matter the complexity of the operation. From nano brewers to national breweries, our team is ready to help with getting you the best ingredients when you need them.

## **Forward Contracting**

Contracting hops for the year, or across multiple years, ensures you have the essential raw ingredients needed for flagship brands and favourite seasonal brews. We recommend brewers forward contract for the bulk of their hop requirements. Through contracting, brewers indicate demand to growers allowing them to plan and plant accordingly.

We secure forward contracts with our partner growers around the globe to lock in favourable pricing and avoid the supply/demand uncertainty of the spot market. No deposits or minimum quantities are required to contract.

Continuous dialogue with growers throughout the year, and farm visits during harvest time, gives us access to consistent high quality hops. Our ongoing conversation with growers allows us to guarantee a true-to-varietal flavour everytime you order.

## **Spot Hops**

Want to try something different for that new seasonal beer? In addition to hop contracting, we offer a wide range of varieties on spot with competitive pricing. Just like our contracted hops, all varieties are fully traceable with certificates of analysis available upon request. Go to our online store or ask your local representative for our current spot sheet.

## **Malt & Grains**

Whether your interests rest in traditional European lagers and ales, or pushing the envelope with industry leading trends, we carry a full selection of malt and grains for all your brewing needs.

## Yeast

It comes down to two things; quality, and consistency. Our liquid and dry yeast partners both deliver on this promise to brewers without fail, and without question. We are extremely proud of our partnerships with White Labs Yeast and Lallemend Brewing given the values they carry into their innovation, selection, quality, and consistency, to their first class products.

Our goal as a distributor is to unlock the accessibility to these products while providing a level of knowledge and access directly to their resources and research.

To get you what you need when you need it, we offer a range of accessible inventory solutions from stocked product at Brew Culture warehouses, to direct drop shipments, or easy ordering schedules and direct access to their complete product portfolios. Ordering liquid or dry yeast from Brew Culture has never been easier or more dependable.

## Cleaning Solutions

Based on the amount of time brewer's spend brewing, cleaning is arguably the most important part of the process. Our partners enable us to provide brewers the value and convenience they seek in order for them to spend more time on the important stuff ...like cleaning!

## Brewing Aids

Always there when you need them, we offer a full range of brewing aids which include; water treatment salts, minerals and acids, hot and cold side clarifying agents, brewing enzymes, yeast nutrients, and brewing sugars.

## Technical Consulting

Our partnerships with many of the leading producers in the brewing industry, paired with our internal knowledge of brewing ingredients and application, provides us the skills to help solve any problem that you may encounter. Our technical sales team is comprised of a group of diverse, experienced, educated, and certified professionals. We bring nearly 20 years of first hand brewing experience, and over 45 years collectively in the craft beer industry. We have a Certified Cicerone®, a Certified BJCP judge, and an international award winning brewer!

We can offer free quick opinions and solutions for small issues, consulting services for bigger issues, planning, or large scale projects. Our expertise includes; brewing ingredients, recipe development, brewing process, production forecasting & scheduling, brewery efficiency, quality assurance, safety, contest submission, tasting panels.

In conjunction with the Siebel Institute Laboratory Services and White Labs Yeast, Brew Culture is able to offer the industry's most complete range of brewing-related analytical tests. Tests are conducted using the strictest standards employing methods prescribed by the American Society of Brewing Chemists and AOAC.

Need an honest second opinion, or looking for a suggestion? We're always happy to be able to provide added guidance to help brewers make the best possible beer in the most efficient and safest way. No matter the issue, we're always here to lend our expertise in a collective effort to help our brewers to produce the best possible product.

# How We Do It

## Storage/Locations

Brew Culture has two dry and cold storage facilities located in Muskoka ON and Vancouver BC. In either location you can pick up your order for free, or take advantage of our competitive shipping rates by letting us find you the right logistics solution for your needs.

## Logistics

We pride ourselves not only on our brewing ingredient knowledge but also our logistics expertise. Our goal is to get the right ingredients to the right place at the right time - every time. Our team can organize courier, LTL/FTL or freight container deliveries to best suit your specific needs. Tell us if your priority is cost or time and we won't disappoint.

## Ordering

With multiple options to order from us, we have an ordering method for every type of shopper.

**Order Online:** Create an account at [brewculture.com](http://brewculture.com) to gain access to current pricing, live inventory, and a friendly ordering experience. Ordering online is a convenient method to secure stock and receive quick turnarounds. We all know brewers are busy folks, so shop online at your leisure.

**Call:** Contact your local sales manager, or call us at the office 1-877-889-2739 to speak with one of our knowledgeable team members.

**Email:** Contact your local sales manager, or reach out to [orders@brewculture.com](mailto:orders@brewculture.com). You can expect a response within 24 hrs of your initial outreach. Orders are typically processed within 48 hrs of confirmation.

**“We wanted to mention how impressed our team was with your delivery person today. They had their own electric pump truck, the load was securely strapped in the truck, brought the pallets into the brewery themselves, took a photo that everything arrived safe and sound. A+ delivery service!”**

Mark Murphy - Co-Founder Left Feild Brewery

# Hops

At Brew Culture we're passionate about craft beer and the community within the industry. Craft brewing in its purest form is defined by the creativity and imagination of brewers. We aim to supply brewers with consistent, high quality hops, direct from our partner growers around the globe, so they can produce beers that taste the way they intended.

As the proud Canadian distributor for industry leaders such as; Yakima Chief Hops, Hopsteiner, Roy Farms, Virgil Gamache Farms, ZA Hops, and Seitz Farms, we deliver on our commitment to connect Canadian brewers to the best growers globally.

**"Using these South African hops with Brew Culture was a blast! Southern Sublime was citrus forward with some stone fruit, and Southern Passion was very tropical with some berry. Very fun to try new varieties that really excel in modern styles."**

Nick Lang - Head Brewer Wishbone Brewing Co.

# Hops

## Global Network of Hop Partners

### Yakima Chief Hops, Yakima, WA.

YCH is a 100% grower-owned network of family hop farms, operating for more than 30 years. Yakima Chief Hops is uniquely positioned to establish strong relationships between the growers who supply our quality hops and the brewing customers who utilize our products in their beers. They are a resource for brewers, providing solutions-based products and industry leading research. They are advocates of sustainability and meaningful social causes, working to support the environment and communities around us.

### Virgil Gamache Farms, Toppenish, WA.

Home of the world-famous Amarillo® brand hop, known for its exquisitely aromatic, citrus tones that are prized by master brewers around the world. Virgil Gamache Farms is a leading developer, grower and manufacturer of other distinctive hop brands, varieties and products. Includes: alpha, aroma, super alpha, and dual-purpose varieties.

### Hops Direct, Mabton, WA.

Puterbaugh Farms is a 1,200+ acre, 5th generation hop farm. Growing hops in the Yakima Valley of Washington State since the early 1930's.

### Roy Farms, Moxee, WA.

Roy Farms grows several different hop varieties, ranging from high-demand proprietary varieties, hot new experimental, and an array of organic hops. Their selection includes alpha, aroma, super alpha, and dual-purpose varieties.

### ZA Hops, Bolder, CO.

ZA Hops is the premier supplier of South African for North American craft brewers. South African hops offer craft brewers the ability to add diversity, market differentiation, and new possibilities to their beer portfolios through their distinct and unique aromatic and flavour characteristics. Brewing with Passion since 2012.

### Hopsteiner Yakima, WA.

Hopsteiner is a vertically integrated global hops supplier dedicated to delivering the finest hops and hop products available. Founded in 1845, Hopsteiner is a sixth-generation grower that continues to advance the industry as one of the foremost international hop growing, breeding, trading, and processing firms in the world. Hopsteiner ships hops globally and partners with breweries of all sizes, offering unique hop varieties and innovative hop products designed to enhance flavor, aroma, consistency, and flexibility for brewing and beyond.

### Germany Partner Grower

#### Seitz Farms, Wolnzach, Bavaria

Nestled amidst the rolling hills of Hallertau, you will find the more than 600-year-old farmstead of the Seitz family, who are fourth generation hops growers.

### Czechia Partner Grower

#### Bohemia Hops, Zatec

The Bohemia Hop company is the bearer of the Czech hop growing tradition. Growing and trading hops in the Czech Republic has been known worldwide for many centuries. Quality of the Czech hops and beer domiciled through all over the world.

# TRADITIONAL SUSTAINABLE SUPERIOR

Nestled amidst the rolling hills of Hallertau, you will find the more than 600-year-old farmstead of the Seitz family, who are fourth generation hops growers.

# Malt & Grains

Developed over the course of the last few years, at the request of brewers, we are very proud of our portfolio of malt and grains. As the exclusive Canadian distributor of Ireks Malt, Raven Malt, Muntons Malt, Prairie Malt, and Grain Millers, we have positioned ourselves as a valuable source of premium malt and grains across Canada.

These brands have gained their reputation by consistently providing a traditional product true to the brewing values of their respective region of origin. Their flavours are ubiquitous with German, Czech, English, and new world beer styles.

Rounding out our portfolio is a collection of widely utilized flaked adjuncts from Grain Millers that include; oats, wheat, rye, barely, triticale, corn, and rice.

# IREKS

## IREKS (Germany)

IREKS is the malt German brewers use. It has been a core part of their beers since 1856 when their founder master brewer Johann Peter Ruckdeschel opened his own commercial malthouse. IREKS produces all the germanic malts you would expect from class leading pilsner to all the specialty you need for your brew.

IREKS has a diverse clientele around the world. They serve their outstanding malts to large breweries, craft breweries, as well as pub style crafters. Their malt brings a fantastic flavour profile and mouthfeel that is uniquely derived by the quality of the malt and its roast.

## Muntons (UK)

Now trading for 100 years, Muntons have become a leading supplier of brewing and distilling malts and malted ingredients to the food & drinks industry worldwide. Their malts are used in the brewing and distilling industry by globally recognised brands and by the craft brewer seeking something a little different.

Sustainability is the common objective that links all aspects of Muntons business activities. Their objective is to minimise the impact of their business activity on the environment wherever and whenever possible.

## Raven (Czechia)

Established in 1991 originally oriented towards distribution of raw materials for beer production – barley, malt, yeast and hops. Since 2005, they produce their own floor and specialty malts in their malthouse in Záhlinice near city of Kroměříž. In 2016 we also restored within the premises of original lager cellars the tradition of beer production that is dating back to 1896.

## GRAIN MILLERS

## Grain Millers (CAN/USA)

They began in 1986 as a small oat milling company in Oregon. With an eye for finding the right fit at the right time, we have grown steadily ever since. Today, Grain Millers is a leading international agri-business with diversified interests in whole grain manufacturing and merchandising, organic and conventional consumer food products, and the import and export of commodities.

**PRAIRIE  
MALT™**

### **Prairie Malt (CAN/USA)**

The right flavour – the one that sets you apart and makes your product truly unique – comes from quality malt. For decades, we've specialized in producing a wide assortment of high-quality, consistent malt. Traditional to bold or pale to dark, our malts help you deliver the high-quality flavour you expect. As one of the world's leading malt providers, we believe we have an obligation and opportunity to operate responsibly and sustainably while helping our craft brew customers grow and thrive.

# Yeast

Yeast can allow a brewer to make great beer over and over again. We know that beer can't be made without it so we do everything in our power to ensure the process to get yeast is simple, efficient and predictable. Our robust ordering process with White Labs ensures consistent weekly deliveries to breweries across the country. If your production schedule requires a bit more flexibility then we've also got you covered with a wide selection of dried yeasts from Lallemmand.

**“The WLP077 Tropicale Yeast is frickin awesome. Huge tropical notes of tangerine, guava, passion fruit and pineapple. It brought out so much more of the hop character than we expected. It's incredible and ‘goes the extra thiol’.”**

Dave Mozel - Head Brewer  
Folding Mountain Brewing

# White Labs

What began as home brewers searching for higher quality yeast, quickly grew into a team of dedicated biochemists exploring new ways to advance brewing altogether.

Today, White Labs stands at the intersection of science, education and craft. Constantly striving for perfection, and in the process continually raising the bar in the art of fermentation.

Every day, they set out on a single mission: To stretch the limits of science in order to set new standards in purity and freshness.

From the industry's first pitchable liquid yeast to a complete revolution in the way it's propagated and packaged, their innovative spirit is tireless.

It's their belief that creating the best, most environmentally friendly products goes hand-in-hand with making the best use of them, has inspired a culture of education and collaboration with brewers, distillers and winemakers across the globe.

## PUREPITCH<sup>®</sup> NEXT GENERATION

Grown using  
**FlexCell<sup>™</sup>**  
Technology

**No matter the strain, PurePitch<sup>®</sup> Next Generation provides brewers with a dependable cell count for a foolproof fermentation every time.**

PurePitch<sup>®</sup> Next Generation is a professional-sized 1.75L modular pouch designed to pitch into 5 HL at a rate of 7.5 million cells/mL.

# Lallemand Brewing

Lallemand's presence in the brewing industry dates from the early 1970s when the company started producing dried pure culture brewing yeasts for beer kit manufacturers in Canada. In subsequent years, this activity was expanded to the production of other specific ale and lager beer yeast strains for different clients in the United States, Europe and Australia and Asia.

Supported by decades of long-standing industry experience, an extensive support network and strong technical expertise, Lallemand Brewing is positioned to help your brewery achieve its growth and quality goals. Beyond an unparalleled global technical support and expertise, they offer an extensive range of products, services and education.

Whether you are a startup, a global leader in beer production or anywhere in between, we have something for you.

Revolutionize Low Alcohol Beer with LalBrew® LoNa™

# GREAT BEER. MANY STYLES. EFFORTLESSLY.

LalBrew® LoNa™ is a hybrid *Saccharomyces cerevisiae* able to create a variety of clean tasting Lo and No alcohol beers simply and efficiently.

# Fruit

Our speciality has always been, and will continue to be, solving raw ingredient supply chain hurdles for brewers. We heard the call loud and clear and have been working in the background tirelessly to add a new category to our lineup. Partnering with experts in the fruit and fruit processing industry, we are very excited to introduce an extensive line of fruit purees and juice concentrates to our portfolio.

We are proud to now offer a wide variety of aseptic, frozen, and pasteurized fruit products from Miller & Smith. Brewers can expect the usual suspects, such as raspberry and mango to be stock items, and custom orders of the more obscure fruits from red elderberry to sea buckthorn.

If we couldn't do it properly, we wouldn't do it at all; as with the rest of our offerings, brewers can trust the consistency in product quality, accessibility and access, and most importantly - fair pricing.

**Miller &  
Smith**

# Miller & Smith Foods Inc.

Since 1958, Miller & Smith Foods Inc. has been a leading food ingredient supplier providing industrial pack food ingredients across Canada and the United States. They import both organic and conventional, bulk tomato products, juice concentrates, fruit purees, NFCs, and IQF fruits and vegetables from world-class producers. With this being their 65th year of industry experience, our collective knowledgeable staff are able to provide the best in products, information and service to brewers across Canada.

Their procurement team continuously develops new and existing relations with world-class producers to deliver quality products that exceed the food safety and quality requirements of our customers. Their exclusive selection of international producers insure a wide spectrum of all available concentrates, purees and NFCs available in certified organic and conventional forms.

# Brewing Aids & Cleaning Solutions

Our extensive lineup of brewing aids includes everything a brewer needs; whether it be enzymes and nutrients, sugars and fermentables, clarifiers and finings, or water treatment products, we have everything you need to meet your profile requirements.

A wise brewer once said their secret to making great beer over and over again was to “clean, clean, clean”. Working with industry leaders, Brew Culture can make recommendations and provide you with the right product for any cleaning application.

# Brewing Aids

## Enzymes & Nutrients

Nutrients	Description	Pack Size
WLN1000 White Labs Yeast Nutrient	Increase Health of Yeast and Improve Fermentation and Re-pitch Performance	80oz
WLN2000 FANMax Bio™ Yeast Nutrient	Optimized for Great Solubility of Nitrogen in Fermentation, 100% Diammonium Phosphate (DAP)	2kg, 6kg
WLN2500 SeltzerMax Yeast Nutrient	Nutrient to Create a Clean, Dry, and Clear Seltzer	2kg, 6kg, 12kg
WLNFERM Fermaid K Yeast Nutrient	Blended Complex Yeast Nutrient That Supplies Ammonia Salts	2.5kg, 10kg
WLNFERMO Fermaid O Yeast Nutrient (2.5kg)	Ideal for Distillers and Winemakers Seeking an Organic Yeast Nutrient	2.5kg
WLNGOFORM Go-Ferm Yeast Nutrient (2.5kg)iv	Provides Bioavailable Micronutrients in the Non-stressful Environment of Yeast Rehydration	2.5kg, 10kg
Servomyces	Natural Zinc Enriched Single-strain Yeast (from Hefebank Weihenstephan) Used as a Biological Nutrient.	500g
Enzymes	Description	Pack Size
WLE4000 Clarity Ferm	Prevents Chill Haze in Beer	1L, 10L
WLE4100 Ultra-Ferm	Liquid Amyloglucosidase Hydrolyzes Dextrins	1L, 10L
WLE4300 Opti-Mash	Thermostable Alpha-amylase	1L, 10L
WLE4400 Visco-Buster	Beta-glucanase to Hydrolyze Beta-glucans	1L, 10L

## Sugars & Fermentables

Nutrients	Description	Pack Size
Dextrose	Converted from Corn Starch 100% Fermentable	25 kg
Lactose	Used to Add Body and Sweetness	25 kg
Maltodextrin	Non-fermentable used to enhance mouthfeel	22.7 kg

## Process Aids

	Description	Pack Size
ABV Foamsol	Antifoam	5 kg
Quel Firm Control	Antifoam	18.9L Pail
Inhibited Propylene Glycol*	Corrosion Inhibitive Heat Transfer Fluid	18.9L Pail    208L Drum

## Clarification & Finings

	Description	Pack Size
ABV Protosol	Vegan Beer Fining Liquid	5 kg
Compac CG Tablets (Whilfloc)	Carrageenan	2 kg, 25kg
Quel Beer Clear	Vegan Beer Clarification in Cold Processes	18.9L Pail    208L Drum

## Water Treatment

Nutrients	Description	Pack Size
Calcium Carbonate*	Used to Raise Mash pH	22.7 kg
Calcium Chloride	Used to Correct Mineral Deficiencies in Water	22.7 kg
Calcium Sulphate (Gypsum)*	Used to Correct Mineral Deficiencies in Water	22.7 kg
Citric Acid	Add to Increase Water Acidity and Lower pH	25 kg
Lactic Acid 88%	Lowers pH of Sparge Water	18.9L Pail    208L Drum
Magnesium Sulphate	Water Hardener	22.7 kg
Phosphoric Acid 75%	Lowers pH of Sparge Water	22.7 kg
Sodium Chloride		20 kg

# Cleaning Solutions

## Cleaning & Sanitizing

Brewery Essentials	Description	Pack Size
Quel CIP HD	Concentrated Liquid Caustic Detergent	18.9L Pail    208L Drum
Quel Acid CIP	Low-Foam Acid Cleaner & Descaler	18.9L Pail    208L Drum

# LESS IS **MO**RE

LESS SHIPPING. LESS PACKAGING.  
LESS STORAGE. LESS BRACT. LESS HOP CREEP.  
LESS PROCESS HANDLING. LESS TUB MATERIAL.  
LESS WASTEWATER. LESS ENVIRONMENTAL IMPACT.

MORE HOP CHARACTER.  
MORE OILS. MORE YIELD.  
MORE SAVINGS.

FIND OUT HOW MUCH MORE  
YOU CAN MAKE WITH LESS.

TRY THE **CRYO** CALCULATOR

\*Results will vary by brewery, recipe, and methods used.
